2. Databases

In the diagram below, a sample of the records from a database table shows some of the information held by a travel agency on the holiday packages they sell. Normally, the clerk enters new data via a form.

	IDcode	Country	Airport	Resort_name	Holiday_type
1	E104	France	CDG	Disneyland Paris	Full board
2	E106	England	LHR	London YMCA	Self catering
3	E108	France	CDG	Paris Novotel	Half board
4	E112	Germany	BER	Berlin Sheraton	Half board
5	A201	USA	MIA	Disneyworld Orlando	Full board
6	A245	USA	JFK	New York Hilton	Full board
